SKILLS, INTERESTS, GIFTS AND GOALS

Of the skills that the MMI expects Associates to gain during the experience, (see overview for the list), identify one that is particularly exciting to you and briefly (in a sentence or two) explain the reason why applying this skill is exciting to you.

Of the skills that MMI expects Associates to need, identify the one that you believe will invite you to experience the most growth - briefly (in a sentence or two) explain your response.

Briefly explain what you would like to be doing, professionally or academically, in two or three years.

Please answer one of the following questions in 500 to 600-word essay response. Please use a separate sheet of paper and attach your typed or legibly written responses with the application.

1. What does Memphis Music mean to you and why do you believe it is vital for youth to engage in music programming during school?
2. Describe your ideal work environment — *e.g.*, what are the values you appreciate; what type of people inspire you to rise to your highest self; what are the circumstances in which you thrive?
3. Explain the reason that you want this opportunity - by the end, what do you hope to experience or gain and what do you hope to share?
4. What do you wish that people understood about you, but rarely do and what would be the benefits (for you and/or others) if people had this knowledge?
5. Explain a challenge that you have had to overcome (at work, school or life, in general). What was your approach and lessons learned? How might that experience prepare you for the MMI Associates Program?

I understand that completing this application does not guarantee admittance into the MMI Associates Program.
